NOT ONLY ROBOTICS...

Minimally Invasive digestive surgery and beyond

Dear colleagues,

Next June a scientific event on advanced minimally invasive surgery will be held in Florence under the aegis of the CRSA (Clinical Robotic Surgery Association). Despite that label, the meeting will not only be focused on robotic surgery. The idea is rather to compare robotic and laparoscopic surgery, two techniques born from the same inspiration, that complement each other and have the same goal: to preserve the patient's wholeness, to improve the quality of care and to reduce the surgical invasivity as much as possible. The program of the meeting is planned in three surgical sessions about the more recent treatments of the upper digestive, colon-rectum and the HPB diseases. During a fourth session the aspects of training in minimally invasive surgery will be further discussed. Within the individual sessions some "special topics" will be discussed, focusing on specific scientific or technological subjects. The faculty includes expert speakers and renowned professionals from Italy, Europe, US and Asia. As already mentioned, the fundamental objective of the meeting is to create an integration between professionals who are interested in advanced minimally invasive surgery. Robotic and laparoscopic surgery techniques should not arise in opposition to each other, but rather develop common paths in clinical and scientific research, technological innovation and training.

We believe in the quality of this project and its inspiring ideas, and we hope to see you in Florence.

Andrea Coratti

FLORENCE

June 6th-7th 2016

NOT ONLY ROBOTICS...

Minimally Invasive digestive surgery and beyond

MONDAY JUNE, 6TH 2016

08.00 Participants registration

INTRODUCTION

08.30 Welcome

Andrea Coratti, Paolo Pietro Bianchi, Fabrizio Di Benedetto

08.45 Introduces: *Andrea Coratti, Paolo Pietro Bianchi*

Historical memory of laparoscopic and robotic surgery

Giuseppe Spinoglio, Luciano Casciola, Domenico Garcea, Francesco Badessi

UPPER GI

Chairs: *Luciano Casciola, Andrea Valeri, Stefano Santi*

09.30 Minimally invasive esophagectomy: robotic vs thoracoscopic approach

Jelle Ruurda, Roberto Petri

10.00 Full robotic Ivor Lewis esophagectomy

Andrea Coratti

10.15 Laparoscopic gastrectomy for cancer: technical features and critical points

Maurizio Degiuli

10.30 Robotic surgical treatment of gastric cancer: early and long term results

Woo Jin Hyung

MONDAY JUNE, 6TH 2016

UPPER GI

Chairs: *Luciano Casciola, Andrea Valeri, Stefano Santi*

10.45 Current status of minimally invasive gastric surgery:
from literature review to IMIGASTRIC study

Amilcare Parisi

11.00 Fluorescence-guided lymph node dissection during robotic surgery
for gastric cancer: technical aspects and perspectives

Fabio Cianchi

11.20 Discussion with the Experts:

*Francesco Badessi, Francesca Bazzocchi, Massimo Carlini,
Domenico D'Ugo, Riccardo Naspetti, Marco Scatizzi*

SPECIAL TOPICS

11.50 Introduces: *Roberto Manetti*

The new frontiers in advanced operative endoscopy

Alessandro Repici

12.10 Introduces: *Martina Focardi*

Legal issues in the age of technological medicine

Francesco Maresca

12.30 Authorities

Stefania Saccardi, Monica Calamai, Marco Carini, Sara Funaro

NOT ONLY ROBOTICS...

Minimally Invasive digestive surgery and beyond

MONDAY JUNE, 6TH 2016

13.00 LUNCH

COLORECTAL

Chairs: *Giuseppe Spinoglio, Paolo Bechi, Giovanni Romano*

14.00 The anatomy of rectal surgery

Francesco Ruotolo

14.15 Minimally invasive TME: robotic vs laparoscopic approach

Gyu Seog Choi, Paolo Del Rio

14.45 The ROLARR study: lights and shadows

Paolo Pietro Bianchi

15.00 Transanal TME: it is really the best way?

Jeroen Meijerink

15.15 Transanal endoscopic microsurgery: technical features and results

Yves Panis

15.30 Discussion with the Experts

*Flaminio Benvenuti, Piero Buccianti, Graziano Ceccarelli,
Nicola D'Alessandro, Sandro Giannessi, Andrea Muratore*

MONDAY JUNE, 6TH 2016

KEYNOTE LECTURE

Introduces: *Andrea Coratti*

- 16.00 Robotic surgery: state of the art and future perspectives
PierCristoforo Giulianotti

EDUCATION

Chairs: *Domenico Garcea, Fabio Priora, Mario Anneschiarico*

- 16.30 Educational programs in minimally invasive surgery
Amjad Parvaiz
- 16.45 European experience: the ESSO Robotic School
Daniel Perez
- 17.00 Methodology of research and educational programs in surgery
Graziano Pernazza
- 17.15 Italian experience in Robotic Surgical training
Lapo Bencini
- 17.30 Educational and organizational models of nursing
in advanced minimally surgery
Maurizio Moroni
- 17.45 End of session

NOT ONLY ROBOTICS...

Minimally Invasive digestive surgery and beyond

TUESDAY JUNE, 7TH 2016

THE TECHNOLOGICAL FUTURE

Introduces:

Paolo Pietro Bianchi

08.40 The technological future in surgery

Antonello Forgione

09.00 Medicine and nanotechnology

Leonardo DeMattos

HPB

Chairs: *Guido De Sena, Giuseppe Maria Ettorre, Felice Borghi*

09.15 Minimally invasive pancreatoduodenectomy:
robotic vs laparoscopic approach

Ugo Boggi, Igor Khatkov

09.45 Distal pancreatectomy: laparoscopic or robotic?

Giovanni Butturini

10.00 Development of a clinical program in advanced robotic surgery

Fabrizio Di Benedetto

10.15 Current evidence in laparoscopic liver surgery

Alessandro Ferrero

10.30 Robotic liver surgery: there are technical limits?

Chung Ngai Tang

TUESDAY JUNE, 7TH 2016

HPB

Chairs: *Guido De Sena, Giuseppe Maria Ettorre, Felice Borghi*

- 10.45 Minimally invasive approach to posterior segments in liver surgery
Alberto Patrìti
- 11.00 The IGOMILS experience
Luca Aldrighetti
- 11.15 How minimally invasive surgery has changed the life of anesthesiologist?
Stefano Romagnoli
- 11.30 Discussion with the Experts
Fulvio Calise, Luciano De Carlis, Giulio Belli, Marco Filauro, Giacomo Batignani, Marco Farsi, Emanuele Balzano.

SPECIAL TOPICS

Introduces:

Gianluigi Taddei

- 12.15 The new frontiers of pathology in pancreatic cancer
Aldo Scarpa
- 12.35 End of session
- 14.00 CRSA Italy Session
- 18.00 End of work

CONGRESS VENUE

Teatro della Pergola,
via della Pergola 12/32 | Florence, Italy

ORGANIZING SECRETARIAT

Ti.Gi. Congress
Via Udine, 12 | 58100 Grosseto
Phone +39 0564/412038
info@tigicongress.com | www.tigicongress.com

REGISTRATION

Participation to the event is free and reserved to surgeons.
The registration includes: congress kit, admission to scientific sessions,
coffee break and working lunch as indicated on the program, certificate of
attendance.

To sign up for the event online please visit the following URL:
<http://tigicongress.com/2016/not-only-robotics>
registration will be open until May 29th,2016

ECM

No ECM credits will be awarded.

BADGES

Participants are kindly requested to wear the name badge when entering
the congress venue and while accessing any of the services offered during
the event. Access to the Congress Centre will not be allowed if the name
badge is not shown.

EXHIBITION

An exhibition of the newest pharmaceutical products and medical devices
will be organized at the Congress Centre.
Opening hours will conform to the congress activities.

INSURANCE

The organisers are not responsible for individual medical, travel or
personal insurance. Participants and guests should arrange
their own coverage.
